[NCHGW PRP Mailing List Rqst for Info and Notice Responses.xlsx](#)

Thanks Beverly.

I went through and filed what I have received thus far from the parties who received request for information and/or notice letters. In the attached spreadsheet I've highlighted in red the parties who I do not have responses from yet.

When you start to go through your files could you cross check with this spreadsheet and see if you have a copy of any of the responses which I have I highlighted red?

Thanks in advance,

Jen

You are welcome to forward the lists with the caveat that some letters were returned. However, I think we hit all the parties because we had some multiple addresses for some companies.

Beverly,

Do you have any objection to me forwarding the New Cassel/Hicksville Site Notice and 104(e) address list to NYSDEC? I received a request from them this morning (see email below).

I have attached the address lists that I would forward along.

Thanks in advance,

Jen

Jennifer, Pete,

Can the mailing list for the Section 104(e) letters for the NCHGWC site be provided to us?

We received one (email attached) and wondering to whom else they were sent.

Please let me know. Thanks.
